

eCARE

Nursing staff

This class is for all new Nursing staff who will be doing electronic documentation or staff returning from leave who feel they require a refresher course.

The content in the eCARE classes builds on content taught in the Computer Orientation classes such as: the Status Board and using it for electronic documentation, the Visual Flow sheet and how to use it to view electronic documentation.

Allied Health employees, including Respiratory Therapists

This class is for all new Allied Health employees, including Respiratory Therapists who will be doing electronic documentation. The additional class time for RT's is to allow for learning how to access their screens through the EDIS module.

The content in the eCARE classes builds on content taught in the Computer Orientation classes such as: the Status Board, the Visual Flow sheet and how to use it to view electronic documentation.

Access to eCARE documentation will be given to the employee at the end of the class. This is assuming that their computer access has been previously created.
